

Praesideo

- ▶ **Fully digital**
- ▶ **High quality products**
- ▶ **Fully supervised redundant system**
- ▶ **Easy installation and maintenance**

A fully digital public address, voice evacuation system that meets all the requirements placed by professional users. It brings highly innovative and advanced digital technology to the public Address market.

The processing and communication of both audio signals and control data entirely in the digital domain makes the system superior to other public address and emergency sound systems.

Product features like redundant cabling, spare amplifier switching, system supervision from microphone capsule up to last EVAC compliant loudspeaker, unique WLS "Wire free" Line and Loudspeaker Supervision, up to 256 priority levels for background music, business- and emergency calls, fault logging and 48 Vdc backup power position this IEC 60849 certified system in the top segment of the market.
